

## VCI ADDITIVES FOR FORMULATORS

# **Closed Loop Toad™** Patent Pending

#### **PRODUCT DESCRIPTION**

Cortec's Cooling Loop Toad<sup>™</sup> is a unique combination of Vapor Corrosion Inhibiting (VCI) powders in polyvinyl-alcohol (PVA) water-soluble bags. It was developed to provide corrosion protection in recirculating and operating cooling systems. This product prevents corrosion of metals in the liquid phase, vapor phase and the liquid-vapor interface. The bag dissolves and the VCIs adsorb on all metal surfaces - reaching even recessed areas and interior cavities. The VCIs form a strong protective molecular layer on the metal. Cooling Loop Toad<sup>™</sup> also contains a blend of organic-based scale inhibitors to prevent scale.
